

We provide the information on 8 specified ingredients required to be labeled by the Japanese Food Labeling Act, 20 items equivalent to specified ingredients recommended to be labeled.

(1) Allergen key

● : Used as ingredients ○ : Shared/comes in contact with ingredients at the factory production line

(2) Notice

*Since manufacturing plants and stores also handle ingredients containing other allergens that are not originally contained in the product, there is a possibility that these substances may come into contact with or get mixed into the product.

*Each person has a different sensitivity to allergens. We recommend that you consult with a medical expert before you make a decision on the purchase or consumption of a product.

*The information provided is based on the most current ingredient information available. As data may be updated at any time, please confirm the date last updated.

*Some products, such as limited time offer promotions may not be listed.
